PROFESSIONAL SUMMARY:

Versatile and detail-oriented Computer Engineering graduate with hands-on experience in software development, data science, and cloud deployment. Proficient in Python, SQL, C# and modern frameworks like FastAPI and .NET Framework. Demonstrated ability to build scalable applications, develop RESTful APIs, and deploy solutions using Docker and AWS. Skilled in data analysis, machine learning, and dashboard creation using Power BI. Adept at collaborating in agile teams, solving real-world problems, and continuously learning new technologies to deliver impactful solutions.

TECHNICAL SKILLS:

- **Languages:** Python, SQL, C/C++, C#, HTML, CSS, JavaScript
- **Frameworks & Tools:** FastAPI, .NET Framework, Power BI, Excel, Git, Docker
- **Data Science:** Machine Learning, Deep Learning, AI, Data Analysis, Model Deployment
- **Cloud & DevOps:** AWS EC2, GitHub Actions, CI/CD, OOPs
- **Soft Skills:** Problem Solving, Team Collaboration, Critical Thinking

PROJECTS:

1. **Kidney Tumor Detection (Deep Learning, AWS)**
 - Developed a CNN model using VGG16 architecture to classify kidney tumors with an accuracy of 96.2%.
 - Preprocessed medical imaging data to enhance model performance.
 - Deployed the model using Docker on AWS EC2, ensuring scalability and reliability.
 - Implemented CI/CD pipelines using GitHub Actions for automated testing and deployment.
2. **Sensor-Based Fault Detection System (ML, FastAPI)**
 - Designed and implemented a real-time fault detection system using Decision Trees, Random Forests, and Neural Networks.
 - Integrated data drift detection mechanisms to maintain model accuracy over time.
 - Developed RESTful APIs using FastAPI for seamless integration with other systems.
 - Conducted extensive testing to ensure robustness and reliability of the system.
3. **Expense Tracker (Python)**
 - Developed a **Command-Line Interface (CLI) application** to efficiently manage and categorize personal expenses.
 - Implemented **CSV-based data storage** for persistent expense tracking and retrieval.
 - Applied **modular programming and clean code practices** to ensure maintainability and scalability.
 - Optimized performance for quick data processing and enhanced user experience.
 - Incorporated **data validation and error handling** to improve reliability and usability.

CERTIFICATION:

- **Data Science Training Course – SevenMentor Training Institute, Pune**
SQL, Python, PowerBI, Statistics, Machine Learning, Deep Learning and Artificial Intelligence

EDUCATION:

B.E. in Computer Engineering

G.S. Moze College of Engineering, Pune - Savitribai Phule Pune University
2017 - 2024 | CGPA: 8.09

HSC – Science with IT

Abhishek Vidyalayam Jr. College, Chinchwad
2015 - 2017 | 60.63%

SSC

Vidya Niketan English Medium School, Pimpri
2005 - 2015 | 72.60%
